Good morning Brian. This is Carol Stein. I had been the EPA lead for NWIRP-Bethpage until early 2018, and I've worked with prior NAVFAC project managers Lora Fly and Jim Colter. Due to an upcoming transition within EPA, it looks like I will resume as the EPA lead. I am in the process of coordinating with Lorenzo Thantu (current EPA project manager) on the upcoming project transfer. My understanding is that although EPA's role has been substantially decreased, EPA remains in the loop for general project oversight.

Lorenzo mentioned that the Navy is planning a Restoration Advisory Board (RAB) meeting for the evening of Wednesday April 17<sup>th</sup>. When you have the chance, please include me on the Navy's mailing list for the RAB meeting and associated background documents.

Thank you,

-Carol-
